

FM 94.3 is a K-LOVE network station in the Chicago area. It provides a unique and vital array of programming directed toward the hundreds of thousands of families in our area who want quality information and musical presentations that all members can enjoy. Currently, the market is swamped by stations with limited variety and playlists. 94.3 is essential to maintaining balance in the interest of the ENTIRE public in this region. A replacement LPFM broadcast could not equal the exceptional quality and local knowledge which 94.3 K-LOVE provides. We advocate retaining K-LOVE's license in the STRONGEST TERMS. Thank you for your consideration.
